

## WANT TO KNOW HOW TO PRINT THINGS OUT FOR YOUR STAND AT PALEXPO?

### TIPS AND TRICKS

- Remember to provide your visuals in high definition .pdf format. Ideally, vectorised versions are even better. This way, you won't run into problems with fonts or proportionality.

### USEFUL INFORMATION:

- Palexpo's printing service can handle all your needs, from posters and stand graphics to brochures and business cards. Having a quick-responding service provider with years of show experience on site can obviously be useful.
