**THE 48th INTERNATIONAL EXHIBITION OF INVENTIONS OF GENEVA TO  
BE HELD FACE TO FACE**

---

The 48th International Exhibition of Inventions will be a face-to-face event in 2022, unlike the virtual event that was organised in 2021. It will be held in Hall 1 of Palexpo, from 16 to 20 March 2022.

The sanitary measures in force at the time of the exhibition will determine the conditions of access of exhibitors, journalists and visitors from all over the world.

The organisers aim at presenting about a thousand inventions at this event.

The Climate Show will take place in the same premises.

Palexpo, 22 October 2021

(about 580 signs spaces included)
